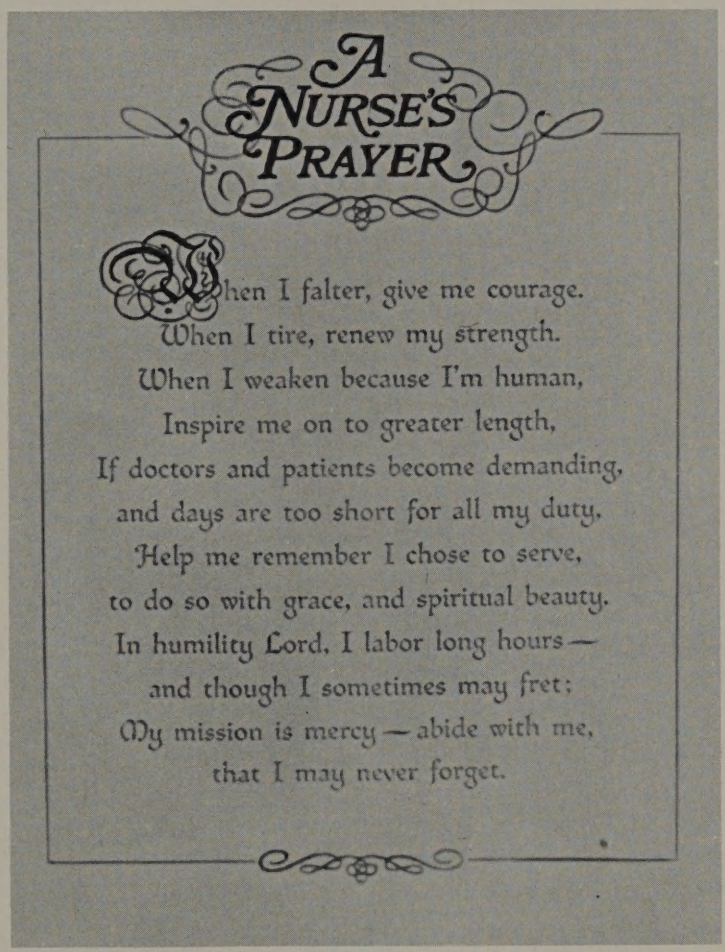
PROFILE 1974



A NURSE'S PRAYER
When I falter, give me courage.
When I tire, renew my strength.
When I weaken because I'm human,
Inspire me on to greater length,
If doctors and patients become demanding,
and days are too short for all my duty,
Help me remember I chose to serve,
to do so with grace, and spiritual beauty.
In humility Lord, I labor long hours—
and though I sometimes may fret;
My mission is mercy—abide with me,
that I may never forget.

Medical, "HARD," maybe? Interesting, I guess? Rewarding - sure? But boy did those seniors scare us at the beginning. Sure it was hard; medications to know, to administer, diabetic classes to teach and inhalation therapy to attend. Yes, it was interesting; didn't know I could learn so much. Rewarding? You're right! Blood pressures: now what is normal? 210/110 or 60/30; that's what Freshman Year is all about - the basics of nursing care.

It works through the combination of clinical and theory. Many long hours are spent at Mott Community College. But when it's all over, we are ready for our stripe and then on to more complicated studies of nursing.

We acknowledge the writers of "People Who Need People," from which we have quoted.

What about you, what about me?
Two years from now, where will we be?
Each of us gone our separate ways
Lost in the headlong passage of days
Maybe we might give love a try
Extending the minutes before goodbye
And for a gentle moment in time
We'll take what pleasure people can find

Are you afraid?
I'm not afraid . . .
